SUMMARY

AI Solutions & BI Analyst | Low-Code AI Tools | Power BI | Rapid Prototyping

Data analytics and AI solutions professional with 5+ years building BI dashboards, AI-powered prototypes, and business intelligence solutions. Expertise in low-code AI tools (n8n, API integration), rapid MVP development, requirements gathering, and translating business needs into technical solutions for leadership decision-making.

TECHNICAL SKILLS

- **AI & Automation:** n8n (workflow automation), OpenAI API integration, prompt engineering, context engineering, RAG systems, Pinecone vector database, AI prototype development, low-code/no-code tools
- **Data & Analytics:** Power BI, SQL (T-SQL, queries, joins, data manipulation), Tableau, Excel (pivot tables, formulas, advanced functions), data visualization, dashboard development, R, Qualtrics
- **Project & Process Management:** Workflow design, process automation, business process analysis, UAT coordination, documentation and user guides, cross-functional collaboration, system audits
- **Enterprise Systems Administration:** Qualtrics, Asana, Zoom Contact Center, System configuration and testing, end-user support and troubleshooting, user access management, vendor management

TECHNICAL PROJECTS

n8n Error Analyzer | AI-Powered Chrome Extension | Jan 2026

- Built AI-powered Chrome extension as a rapid MVP prototype, reducing workflow debugging time from 20 minutes to 30 seconds using OpenAI GPT-4o-mini API integration, Node.js/Express backend, deployed on Vercel with zero infrastructure setup.
- Demonstrates rapid technical learning, API integration, and user pain point identification.

AI Knowledge Assistant | RAG System | Oct 2025 -Nov 2025

- Built Retrieval-Augmented Generation (RAG) system using low-code workflow orchestration (n8n), Pinecone vector database, and OpenAI embeddings/GPT-4 for semantic document search—demonstrating ability to build production-grade AI solutions using primarily no-code/low-code platforms
- Built complete pipeline: document processing, API orchestration, preventing AI hallucinations through grounded retrieval.

INSTITUTIONAL RESEARCH & ASSESSMENT EXPERIENCE

Commuter Transportation Survey | University of the Pacific | Jan 2023 – May 2023

- Designed and administered Qualtrics survey to 1,000+ employees, achieving 79.2% response rate through strategic stakeholder engagement and targeted outreach campaigns.
- Analyzed commuting data revealing 79.2% single-occupancy vehicle usage; presented data-driven recommendations to university leadership for increasing sustainable transportation adoption to 10% by 2025.

Institutional Procurement Analysis (OP-12) | University of the Pacific | Sept 2022 – Dec 2022

- Analyzed financial data from 15 universities identifying $1.245M annual procurement needs.
- Recommended shift to sustainable purchasing practices (EPEAT labels), projecting a 75% reduction in resource consumption.

Regional Economic Forecast Model | University of the Pacific | Sept 2022 – Dec 2022

- Applied predictive modeling to analyze Gross Metro Product across 15 industries, identifying 50.35% growth projection in transportation/warehouse sector.
- Contributed to published institutional research report using advanced analytical techniques.

Graduation & Retention Rate Analysis | University of the Pacific | Jan 2022 – May 2022

- Analyzed 1,500+ data points across 26 variables to assess graduation and retention rates, using Excel and Tableau to identify factors impacting student success.
- Visualized data across 9 demographic groups to inform institutional understanding of retention patterns and support equity initiatives.

EXPERIENCE

Strategic Ops Analyst --Applications Administrator | Heritage Financial Credit Union, NY July 2024 - Present

- Coordinated multi-departmental system implementations and integrations, managing stakeholder requirements, testing protocols, and change management processes to ensure seamless adoption across 13+ departments.
- Built interactive BI dashboards with advanced visualizations, calculated measures, and dynamic filters, providing executives and board members with real-time insights for strategic decision-making across 14+ enterprise projects.
- Managed portfolio of 14+ enterprise projects including **CFO-led budget reduction initiative**, using Asana to create automated dashboards, track timelines, deliverables, and financial impacts while providing executive leadership with automated tracking and reporting on organizational cost optimization efforts.
- Administered enterprise systems for 13+ departments including survey platforms (Qualtrics), contact center technology, and online portals; oversaw system configuration, upgrades, and user access management while maintaining 99% uptime.
- Led User Acceptance Testing (UAT), coordinated vendor issue resolution, and partnered with IT and cross-functional stakeholders to implement 10+ system enhancements and integrations.
- Conducted system audits and data validation to ensure data accuracy and integrity; developed standard operating procedures and documentation to support compliance reporting and end-user training.

Deposit Support Analyst | Heritage Financial Credit Union, New York Nov 2023 – July 2024

- Processed and analyzed 600+ dispute and fraud claims, ensuring 100% compliance with regulatory requirements through systematic data review and documentation
- Handled and reconciled 200+ exceptions and settlements, maintaining data accuracy and supporting operational integrity through detailed transaction analysis
- Streamlined claim processing workflows, reducing processing time by 20% through process improvement initiatives.

Business Analyst Intern | Love Together LLC, New York **Sept 2023 – Oct 2023**

- Analyzed engagement data from 300+ professional users, identifying patterns that contributed to an 11% increase in lead generation and platform adoption
- Collaborated with QA, web development, and marketing teams to conduct market research and develop data-informed acquisition strategies supporting business growth initiatives

Special Projects Assistant | University of the Pacific, CA Sept 2022 – May 2023

- Coordinated **STARS sustainability accreditation assessment** across 14 university departments (Facilities, Energy, Transportation, Food Services, Academic Affairs), collecting and analyzing operational data to benchmark against peer institutions and identify improvement opportunities for 'Silver' rating renewal.
- Built E**xcel dashboards with pivot tables and data visualizations** to track progress across 10 operational categories (Buildings, Energy, Water, Waste, Transportation) and 4 planning categories (Coordination, Diversity, Investment, Wellbeing), supporting strategic planning for **2027 accreditation cycle**.

- Managed survey distribution and response tracking across 14 departments, employing stakeholder engagement strategies that achieved 85%+ completion rate for assessment data collection - directly supporting institutional accreditation and continuous improvement goals.

Business Analyst | AK Technovation, India **Jan 2021 – Dec 2021**

- Performed data analysis using SQL and T-SQL to extract and manipulate data from databases, developing dashboards and statistical visualizations that supported business intelligence initiatives and strategic recommendations for executive leadership.
- **Built data models and interactive dashboards** to track operational metrics, enabling data-driven decision-making across departments and identifying process improvement opportunities that reduced manual reporting time.

EDUCATION

University of the Pacific, CA Jan 2022 – May 2023

Master of Science in Business Analytics (MSBA) GPA: 3.93/4.00

SCD Government College, India July 2017 – Oct 2020

Bachelor of Science (CS) GPA: 7.07/10
