SUMMARY

AI Solutions & Operations Analyst | n8n · Power BI · RAG Systems | Higher Ed & Healthcare
Strategic Operations Analyst with 5+ years spanning institutional research, enterprise systems administration, and AI implementation. Built production-grade RAG system featured by Pinecone CEO as Cool Project of February 2026. Connects business problems to working AI solutions without an engineering team.

TECHNICAL SKILLS

- **AI & Automation:** n8n, OpenAI API, prompt engineering, RAG systems, Pinecone, AI prototype development, low-code/no-code tools
- **Data & Analytics:** Power BI, SQL, Tableau, Qualtrics, Excel (pivot tables, advanced functions), data visualization
- **Product & Process Management:** Product ownership, roadmap development, backlog management, workflow design, process automation, UAT coordination, business process analysis, cross-functional collaboration
- **Enterprise Systems Administration:** Asana, Zoom Contact Center, system configuration, user access management, vendor management

TECHNICAL PROJECTS

FitCheck | AI Job Fit Analyzer | Mar 2026
- Built AI-powered job fit analyzer using Claude API, React, and Supabase that scores resume-to-job description match (0-100), identifies skill gaps, and generates tailored cover letters.
- Designed three-tier fit scoring system (Your Lane, Stretch, Hard No) with application tracking dashboard – live demo

Molecular Bond Visualizer | Interactive Education Tool | Mar 2026
- Built gesture-controlled molecular visualization tool using p5.js and MediaPipe Hands, enabling real-time manipulation of H_2O and CO_2 structures with live bond physics and electron density modeling — deployed at molecule-viz.vercel.app
- Designed to demonstrate accessible, browser-based interactive learning for higher education chemistry — no installation required.

n8n Error Analyzer | AI-Powered Chrome Extension | Jan 2026
- Built AI-powered Chrome extension reducing n8n workflow debugging time from 20 minutes to 30 seconds using OpenAI GPT-4o-mini, Node.js/Express backend, deployed on Vercel.

AI Knowledge Assistant | RAG System | Oct 2025
- Built production-grade RAG system using n8n, Pinecone, and OpenAI GPT-4 for semantic document search with source citations and conversation memory — featured by Pinecone CEO Aaron Kao as Cool Project of February 2026.
- Engineered complete pipeline: document processing, API orchestration, and hallucination prevention through grounded retrieval.

Student Inquiry Router | University Automation Workflow | 2025
- Built n8n automation routing student inquiries by type (Financial Aid, Admissions, IT Support) via webhook to department-specific Airtable tables with instant email confirmation — reducing first response time from 4-6 hours to under 1 minute.

EXPERIENCE

Strategic Operations Analyst | Heritage Financial Credit Union, NY **July 2024 - Present**

- Served as product owner for IVR contact center system, managing roadmap priorities, gathering requirements from 13+ departments, coordinating vendor relationships, and leading system enhancements that improved automation rates and reduced call abandonment by 25%.
- Coordinated multi-departmental system implementations and integrations, managing stakeholder requirements, testing protocols, and change management processes to ensure seamless adoption across 13+ departments.
- Built interactive BI dashboards with advanced visualizations, calculated measures, and dynamic filters, providing executives and board members with real-time insights for strategic decision-making across 14+ enterprise projects.
- Built interactive BI dashboards and automated executive reporting with advanced visualizations, calculated measures, and dynamic filters — providing real-time strategic insights across 14+ enterprise projects including CFO-led cost optimization initiative.
- Administered enterprise systems for 13+ departments including survey platforms (Qualtrics), contact center technology, and online portals; oversaw system configuration, upgrades, and user access management while maintaining 99% uptime.
- Led User Acceptance Testing (UAT), coordinated vendor issue resolution, and partnered with IT and cross-functional stakeholders to implement 10+ system enhancements and integrations.
- Conducted system audits and data validation to ensure data accuracy and integrity; developed standard operating procedures and documentation to support compliance reporting and end-user training.

Deposit Support Analyst | Heritage Financial Credit Union, New York **Nov 2023 – July 2024**

- Processed 600+ dispute and fraud claims with 100% regulatory compliance; streamlined workflows reducing processing time 20%.

Business Analyst Intern | Love Together LLC, New York **Sept 2023 – Oct 2023**

- Analyzed engagement data from 300+ users, identifying patterns contributing to 11% increase in lead generation.

Special Projects Assistant | University of the Pacific, CA **Sept 2022 – May 2023**

- Coordinated STARS sustainability accreditation across 14 departments, collecting and analyzing operational data to benchmark against peer institutions for Silver rating renewal.
- Built Excel dashboards with pivot tables tracking progress across 14 operational and planning categories, supporting 2027 accreditation planning.
- Designed and administered Qualtrics commuter survey to 1,000+ employees, achieving 79.2% response rate; presented data-driven recommendations to university leadership.
- Analyzed 1,500+ data points across 26 variables to assess graduation and retention rates across 9 demographic groups, informing equity initiatives.

Business Analyst | AK Technovation, India **Jan 2021 – Dec 2021**

- Performed SQL and T-SQL data analysis, built dashboards and statistical visualizations supporting executive decision-making.

EDUCATION

University of the Pacific, CA Jan 2022 – May 2023

Master of Science in Business Analytics (MSBA) GPA: 3.93/4.00

SCD Government College, India July 2017 – Oct 2020

Bachelor of Science (CS) GPA: 7.07/10
